In light of the recent communications sent regarding COVID-19, University Honors will be implementing the following:

1. Honors Office Hours: We will be open regular business hours (8:00am – 5:00pm) to the end of Friday, March 13. After that time, the University Honors office will be closed until further notice.

2. Honors counseling: As you all know, Honors counseling appointments are not mandatory for any students during Spring quarter. However, any students wishing to receive Honors counseling may do so via e-mail. Please reach out to your designated Honors counselor via e-mail with your questions and/or concerns and we can provide assistance via e-mail. If your question/concern requires follow-up or a discussion that is not conducive to e-mail, please let your Honors counselor know, and we will provide further instruction on how to make alternate arrangements. Please do not call and leave a message regarding a question/concern as some staff may be telecommuting and not be able to receive your message.

3. Honors involvement events: All Honors involvement events will be suspended until further notice.

Please check your e-mail for updates. If you have any questions or concerns, please contact your designated Honors counselor, and we will get back to you as soon as possible.
